

KENT POLICE

Today I have become aware of the following new banking scam :

The scammers are ringing generally **vulnerable people** stating that they are from **Greater Manchester Police** (or any other Police Force) and that their bank/credit cards have been cloned to purchase high values items.

They then provide a number for the person to ring back with their bank details.

As usual with this type of call it is a well-rehearsed **scam** attempt.

Please be wary of any such calls and pass the message to anyone who you may believe would be **vulnerable** to these unscrupulous fraudsters.

As always.....**Stay Vigilant**
